

## ED510 SALES LITERATURE

The ED510 has many more features than the ED500 and as a result the number of gas sensors and bilge level positions has been reduced to 2 of each. This point should be remembered if upgrading from ED500.

### FEATURES

Two fault monitored fire detection zones  
Two fault monitored water level detection zones  
Two fault monitored gas detection sensor inputs  
Two bilge pump outputs with manual override  
Automatic gas solenoid valve shut off  
Accepts direct connection of Semiconductor gas sensors or via  
ED Transmitter module allowing use of Catalytic and Electrochemical gas  
Sensors  
Fault monitored sounder / beacon output  
Integral alarm / fault buzzer  
Alarm relay output  
Splash proof front panel

### SIZE

The unit is slightly bigger than the ED500: 254mm x 130mm x 80mm deep requiring a cutout of 245mm x 105mm. The unit now comes with a rear enclosure.

It is available with items sold individually or as a package.

### Package:

1 x ED510 control panel 12V/24Vdc  
2 x EDP1B, 2B, or 3B Gas sensor  
2 x Float Switch  
2 x Smoke Detector c/w base  
1 x Heat Detector c/w base  
1 x ED6 Sounder

Total £495.00 RRP + VAT + carriage.

See price list for individual prices.
